

FXR Longitudinal Connector

Connectors

Connection element for longitudinal alignment of FXR Mounting Rails

Material specifications	
Material	DD11 or equivalent steel
Coatings	Galvanized, Hot-Dip Galvanized (HDG), Powder Coating*, Zinc Magnesium*

Applications

- Longitudinal connections of FXR Mounting Rails.
- Maintaining continuity of FXR Mounting Rails for Large spans (e.g., In Pre-Engineered building structures)

Features & Benefits

- Easy to install with less components
- Ensures longitudinal alignment of FXR mounting rails.
- Four through bolts ensures safer connections

Select Variant

Article No.		Product Description	Pack Size (Nos)
Galvanized (vz)	HDG (fvz)		
637705	637706	FXR Longitudinal Connector - 41141 - 41124	25

*Available on request

** **Note:** Recommended numbers of FXR longitudinal connectors based on FXR mounting rail profiles.

1. For FXR 41141 and FXR 41162 – One connector per joint
2. For FXR 41182 and 41124 – Two connectors per joint
